Login

To login to the system, use your email address and assigned initial password in the login form on the Home Page. The initial password is "Xavier01".

Reset Password

To reset your password, enter your email address in the login form on the Home Page and press "Reset Password". An email will be sent to your email address with your new assigned password.

*Recommendation: KEEP this email or you will constantly have to reset your password if you forget it.

Study Inventory

Study Inventory Phase

The Study Inventory Phase permits you to upload an article and extract information from the article such as title and professions.

Purpose of Study Inventory Phase

Extract Information

To extract information from the article, you can highlight (copy) the required info and paste it into the designated fields.

Upload Article

To upload the article, click the "Browse" button on the Study Inventory form. (ONLY pdfs)

Articles

Articles Phase

The Articles Phase displays the list of articles submitted by all reviewers. As a reviewer, you can view this list before you submit an article to prevent attempting to upload an existing article.
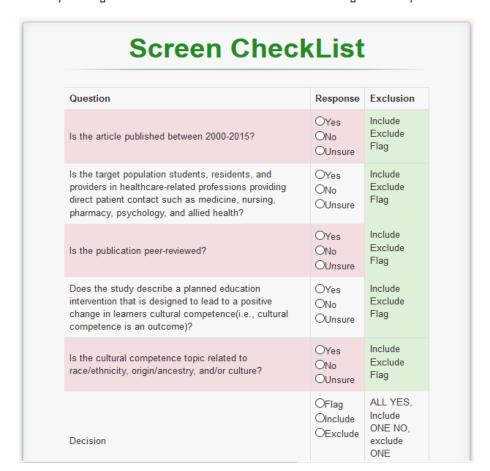

Article Screen Checklist

Article Screen Checklist

The Article Screen Checklist phase display the articles assigned to a specific reviewer. Reviewers are permitted to submit, view, and edit a checklist, view and download an article and view the article's Study Inventory. Once the reviewer submits an Article Screen Checklist, the view and edit link will be enabled and the submit checklist list will be disabled. Article Screen Checklists are completely blindly by two reviewers. In this phase reviewers screen the article to indicate whether or not the article should be included in the academic study.
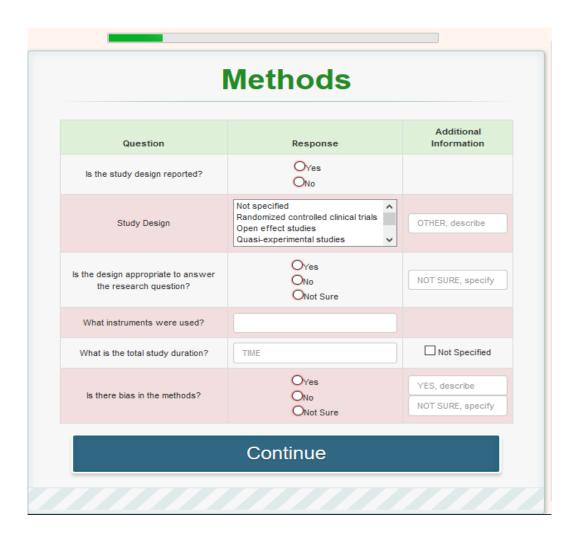

Articles assigned to Reviewers

Reviewers are assigned articles based on their designated teams. Articles are dispersed randomly amongst team members, but reviewers are assigned an equal number of articles.

Screen CheckList

Question	Response	Exclusion
Is the article published between 2000-2015?	◯Yes ◯No ◯Unsure	Include Exclude Flag
Is the target population students, residents, and providers in healthcare-related professions providing direct patient contact such as medicine, nursing, pharmacy, psychology, and allied health?	◯Yes ◯No ◯Unsure	Include Exclude Flag

Is the cultural competence topic related to race/ethnicity, origin/ancestry, and/or culture?	◯Yes ◯No ◯Unsure	Include Exclude Flag
Decision	◯Flag ◯Include ◯Exclude	ALL YES, Include ONE NO, exclude ONE

Data Extraction

Data Extraction

In Data Extraction Phase reviewers will be able to submit, edit, and view assigned articles data extractions. Reviewers will be able to edit and view Data Extractions submitted by one other reviewer that were assigned the same articles to data extract. This is the only phase in which the phase is not blind. The Data Extraction consists of a multi-phase form that will not save the answers until the reviewer clicks submit *(once a reviewer starts, she must complete it in its entirety for it to be saved in the system)*.

QUESTS Appraisal

QUESTS Appraisal

The QUESTS Appraisal phase permits reviewers to provide a numerical grade to articles. Each reviewer will have a list of assigned articles and will be able to submit, edit and view their submitted QUESTS.

Kirkpatrick Rating

Kirkpatrick Rating

The Kirkpatrick Rating phase allow reviewers to provide articles with a score based on the Kirkpatrick Rating. Each reviewer will have a list of assigned articles and will be able to submit, edit and view their submitted Kirkpatrick Rating.
